# We Take Aluminum **Beyond** Bare

Aleris Rolled Products, a leader in the common alloy aluminum market, is also an innovator in developing a broad spectrum of coil coating options with unmatched quality and service.

We take aluminum sheet beyond bare, offering extensive paint system options, color expertise, and application versatility. Aleris offers a range of aluminum coating options flexible enough to meet any need, available in a broad range of colors and finishes.

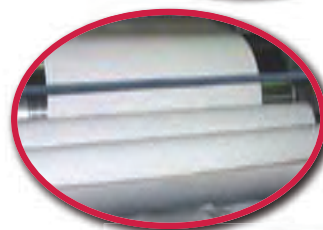

Aleris *Acrylic* and *Polyester* Coating Systems are two of our most versatile options. Both paint systems can be applied directly over various aluminum alloys, in either one or two coats, and are designed for both interior and exterior use.

### Acrylic Coating Features

- Excellent resistance to weathering
- Good exterior stain resistance
- Withstands abrasion and marring
- Cleans easily
- Good formability
- Low to full gloss finish

### Polyester Coating Features

- Excellent resistance to weathering
- Resists marring
- Moderately easy to clean
- Excellent formability
- Broad range of flexibility and durability
- Wide varieties of color and gloss

For extra protection, all of our colors can be formulated with antimicrobial protective additives, which inhibit the growth of bacteria, mold, fungi and mildew.

Our experienced Sales Team will provide technical guidance in the selection of the best substrate and paint system for your coated application.

Explore how pre-coated aluminum can provide you opportunities for success. Call us at **1-866-266-2586** / Email us at [coil.coating@aleric.com](mailto:coil.coating@aleric.com) to see how Aleris Rolled Products can help your business.
